

Declaration

Machinery Directive 2006/42/EC

Following up the analysis carried out on the application field of the Machinery Directive 2006/42/EC, it turns out that the below mentioned parts do not fall within the directive scopes, and can not be identified as safety components. As a consequence the directive itself prohibits any CE markings.

C.matic however guarantees that such products have been developed and manufactured in a workmanlike manner according to the applicable technical specs.

- ❖ Push in fittings (Serie MA, MX, MB, HP, MP, PN);
- ❖ Push on fittings (Serie MC, CX);
- ❖ Olive fittings (Serie MO);
- ❖ Accessories (Serie RA, PA, RX);
- ❖ Couplers and Multiconnectors (Serie GU, PU, GX and CO);
- ❖ Function fittings (Serie MV, PV, VX).
