Directive 2011/65/ UE(RoHS)

“Restriction to use certain hazardous substances in electrical and electronic equipments .”

Following up the Directive 2011/65/UE (RoHS) Cmatic declare that none of their products fall under the application field of the above mentioned Directive.

However , in consideration of the bans and restrictions determined by the RoHS directive with regards to some substances deemed dangerous for health and with a view to supplying an analysis tool to their customers, Cmatic have made an accurate study of the materials used during the production process of their products and are able to declare with regards to such hazardous substances (Enclosure 2 of the Directive) as follows :

Lead (Pb): In consideration of all exemptions stated at paragraph 6 of the Attachment Nr 3 of the Directive 2011/65/UE , any component made in brass, stainless steel and Aluminium used by Cmatic in all supplied products do show a level of lead within the limits determined by the Directive .

Mercury (Hg): This substance is not present in any products supplied by C.matic.

Cadmio (Cd): This substance is not present in any products supplied by C.matic.

Hexavalent Chromium(Cr 6+): This substance is not present in any products supplied by C.matic.

Polybrominated Biphenyls (PBB) and Polybrominated diphenyl Ethers (PBDE): Any plastic component used by Cmatic were declared free of PBB and PBDE
