Correggio, 15.07.2011

DECLARATION OF RoHS COMPLIANCE

The European Council Directive 2002/95/EC restricts the use of hazardous substances in electrical and electronic equipment.

Use of the following substances is banned or restricted:

- Lead
- Mercury
- Cadmium
- Hexavalent Chromium
- Polybromide biphenyls (PBB)
- Polybromide diphenyl (PBDE)

Based on information provided by our suppliers, AIRCOMP by STAMPOTECNICA Srl designates the product listed below as RoHS compliant.

RoHS compliant means that:

- our supplier has confirmed the compliance status of the relevant products to us.
- we have implemented rigorous processes to confirm and document this.

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in Article 4 (1) of the RoHS Directive at concentrations in excess of those permitted under the RoHS Directive or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular applications listed in the Annex to the RoHS Directive.

AIRCOMP by STAMPOTECNICA has taken all reasonable steps to confirm suppliers statements regarding the absence of the restricted substances and maintain a full audit trail of relevant documentation to support this.

Hereby we declare that all items included in our 2011 Air Preparation catalogue, that is: Line 035, 038, 039, 042, 050, 052, 075, 080, 095, are RoHS compliant.
